Lowell P. Braxton  
Associate Director, Mining  
Division of Oil, Gas & Mining  
355 West North Temple  
3 Triad Center, Suite 350  
Salt Lake City, UT 84180-1203

Dear Mr. Braxton:

In the approval of the renewal of our M&RP, a stipulation for UMC 817.46 was made that "within 90 days of permit issuance, the permittee shall submit an adequate design for a spillway system for the loadout area sediment pond to be installed during the reclamation period."

We have begun the design for this spillway system, but it will not be into approval stage to meet the 90 day submission time. We would like to request an extension until March 16, 1990 to submit this design as per the telephone conversation with Keith Zobell on 2-26-90.

approved  
LNB 3-1-90

We appreciate your appreciation and consideration in this matter.

Sincerely,

Glen A. Zumwalt  
Vice President/General Manager
